Subject: Request for discovery on maintainance/repair of mass spectrometers

Hi Elizabeth,

I was hoping to get some documents before this coming Thursday on analysis# [REDACTED] Not sure what may or may not be available. Annie and Kate did the testing.

1. The brand name, model and/or serial # of the spectrometer used to do the testing;
2. Any calibration notes for that instrument to show it was in proper working order when the test was run;
3. Any notes that may have been taken by the analyst relative to this case;

...And the standard discovery packet.

Sorry for the short notice. I can have an investigator swing by on Wednesday to pick up the documents if they are ready.

Thanks again,

Ben
